

# 34 GALLON STAND

1. Install stand feet into base (A) using 4 small screws.
2. Install side panels (E & D) onto stand base using large screws. The curved edges of side panels must be facing front side of stand.
3. Install back panel (C) into side panels and stand base using large screws.
4. Install stand top (B) into side and back panels using large screws.
5. Insert white pegs onto side panels, then mount storage shelf (G) into stand.
6. Install door (F) using hinges already mounted on side and door panels.
7. Install door knob.

Important: The panels marked with the letter "B" should be facing the inside of stand.
